

Nevada's 2022 Targeted Support and Improvement (TSI) and Additional TSI (ATSI) Schools

Overview

Targeted Support and Improvement (TSI) and Additional TSI (ATSI) schools meet designation criteria under Nevada's federally-approved Every Student Succeeds Act (ESSA) Plan. All Indicators in the Nevada School Performance Framework (NSPF) have multiple Measures and each Measure is disaggregated by 10 subgroups (American Indian/Alaska Native, Asian, Black/African American, Hispanic/Latino, Native Hawaiian/Other Pacific Islander, Two or More Races, White, English Learners Current and Former, Students with Disabilities, and Economically-Disadvantaged Students). TSI schools have low-performing subgroups in multiple Indicators for at least two years in a row. ATSI schools are a subset of TSI schools and have very low subgroup performance in the identification year that, on their own, would lead to a Comprehensive Support and Improvement (CSI) designation. The TSI and ATSI schools list identifies schools eligible for supports and interventions. TSI and ATSI schools cannot receive a rating higher than 3 stars in the year of initial designation.

Eligibility Criteria

Schools are designated as TSI if they have consistently underperforming subgroups of students within the Academic Achievement Indicator **AND** two other Indicators (Growth, Graduation Rate, English Language Proficiency, and Student Engagement). A consistently underperforming subgroup is a subgroup that did not meet performance targets two years in a row. These performance targets are:

- The Measures of Interim Progress (MIPs) for ELA and math proficiency, as well as 4- and 5-year graduation rates.
 - These MIPs are unique for each subgroup and each year.
 - For ELA and math proficiency, an alternative target to meeting the MIPs is for a subgroup to decrease non-proficiency by at least 10% over the prior year's performance.
- The lowest point-earning category on the point attribution tables (PATs) for Measures in the NSPF that do not have associated MIPs.
 - This corresponds to the state's 15th percentile of statewide student performance.

Schools are designated as TSI/ATSI if they are designated as TSI in the identification year and have one or more very low-performing subgroups that do not meet targets that are representative of CSI school performance.

TSI and TSI/ATSI School Cohorts

Once a school is identified as a TSI or TSI/ATSI school, it will remain a part of that cohort for four years, including a designation year followed by a three-year improvement phase, with the goal of exiting TSI or TSI/ATSI designation by not meeting TSI or TSI/ATSI criteria, respectively, in the two years prior to the exit evaluation. The first cohort of TSI and TSI/ATSI schools were identified in 2018 (elementary and middle schools only). High schools were first identified for TSI or TSI/ATSI designations in 2019. Therefore, this year's TSI and TSI/ATSI schools list includes schools identified between 2018 and the current year.

Additional Information

Additional information about the data provided within the TSI and ATSI schools list may be found at the end of this document.

Schools Meeting TSI Criteria

Each of these schools had consistently underperforming subgroups (did not meet targets two years in a row) in Academic Achievement and two other Indicators in the year identified. If the school is additionally identified for ATSI, the school has one or more very low-performing subgroups that do not meet targets that are representative of CSI school performance. TSI and ATSI schools cannot receive a rating higher than 3 stars in the year of initial designation.

Additional Information

Column Header Descriptions

District: The school district of the identified school. Charter schools that are sponsored by the State Public Charter School Authority are listed as SPCSA while school district-sponsored charter schools are listed under their school district sponsor.

School Name: The name of the identified school.

Year Identified for TSI or TSI/ATSI: Year school was designated TSI or TSI/ATSI.

2022 Star Rating: NSPF star ratings are not calculated for the 2021-22 school year in accordance with flexibility offered by the USED addendum for accountability. The State is required to provide index scores and calculate all indicators and measures for the NSPF to meaningfully differentiate schools. NSPF star ratings were last calculated for the 2018-19 school year due to the COVID-19 pandemic.

2019 Star Rating: The school's 2019 star rating. 1 star is the lowest rating and 5 stars is the highest rating. Details on how the star rating is calculated can be found on the [Nevada Accountability Portal](#). Note: a school designated as TSI or TSI/ATSI has a star-rating cap at 3 stars in their year identified. In this column, a school with a star rating shown as 3* was originally rated as a 4-star school before the designation cap was applied, while a school with a star rating shown as 3** was originally rated as a 5-star school before the designation cap was applied.
