

Nevada's 2025 Additional Targeted Support and Improvement (ATSI) Schools

Overview

Additional Targeted Support and Improvement (ATSI) schools meet designation criteria under Nevada's federally-approved Every Student Succeeds Act (ESSA) Plan. All Indicators in the Nevada School Performance Framework (NSPF) have multiple Measures and each Measure is disaggregated by ten (10) student groups (American Indian/Alaska Native, Asian, Black/African American, Hispanic/Latino, Native Hawaiian/Other Pacific Islander, Two or More Races, White, English Learners Current and Former, Students with Disabilities, and Economically Disadvantaged Students). ATSI schools have very low performance by one or more student groups in the identification year that, on their own, would lead to a Comprehensive Support and Improvement (CSI) designation. To determine this, an adjusted NSPF Score is generated for each student group at each school using all applicable NSPF rules, and then this adjusted score was then compared to the CSI Criteria to determine if that performance, on its own, would lead to a CSI designation. More information on entrance criteria can be found in the NSPF manual found on the [Nevada Report Card](#). The ATSI schools list identifies schools eligible for supports and interventions.

School Cohorts

Schools identified as ATSI will remain a part of the ATSI cohort for three years unless they meet CSI Criteria and are redesignated during that period. At the end of the three-year period, schools will be evaluated for exit. More information on exit criteria can be found in the NSPF manual found on the [Nevada Report Card](#).

Additional Information

Additional information about the data provided within the ATSI schools list may be found at the end of this document.
